# BRADFORD GIRLS' GRAMMAR SCHOOL

## INSPIRE - SUCCEED - LEAD

As we enter our 5th week of the term I would like to congratulate the girls on a fantastic start to the year. Their work ethic and behaviour has been exemplary. Visitors to the school have commented on how polite respectful the girls have been and what a lovely learning environment it is.

## PARENT SURVEY

Following on from our staff and student surveys, we would like to gather the views of our parents on different aspects of our school and how we can continue to improve. We would value and appreciate your feedback. Look out for the link which will be sent to you this week.

## CAREER OF THE WEEK

Every week we showcase a different career so our students learn about different possibilities for them beyond school.

Palaeontologists may work for museums, universities, in the oil and gas industry, for a science magazine or TV company. They often work in the field obtaining samples and, in a laboratory, analysing the samples. They also plan lectures and workshops to share their findings with others. The average salary is between £43 000 and £47 000. There are approximately 100 000 jobs in the field across the UK with over 500 in Bradford.
